

Water – Oil – Coal

Our Amazing Treasures of Williamson County!

Thursday, November 6, 2008 8 – 5:30 p.m.
A Don Beaumont Geology Field Trip

Visit

Drinking Water Wells of Georgetown and Processing Facilities

Berry Spring Country Park and Historic Natural Springs

Thrall Oil Field

Abandoned, Nature Reclaimed, Probable Reactivation

Chapman Abbott Producing Oil Field-plans for Recovery

Three Oaks Coal (lignite) Mine

Viewing Before Mining, the Mining Operation, and Reclaimed Land

Lunch at Southside Market, Elgin

Our resident geologist turned “professor” leads us through our
“neighborhoods” to witness the rich resources,
right here in Williamson County.

And we learn how they have been used and may be useful in the future.

\$56
