*"Stop the World - I Want to Get Off"*

**By Leslie Bricusse and Anthony Newley** *A thought-provoking tale about the fleeting nature of worldly success. Set against the backdrop of a circus, our hero, Littlechap, attempts to apply some braking effect on his world before it spins out of control. Saddled with the responsibilities of a family, he allows his growing dissatisfaction with his existence to lead him astray as he searches for something better than he has, only to realize in the twilight of his life what he always had was **more** than enough to sustain him.*
